What they are saying about Communic8 Now!

After speaking with Biola and Tobi about my ideas for the corporate stationery of my company, they came up with simple BUT creative designs that has helped in projecting my company as simple, modern and professional. I was very satisfied with the service and I got full value for my money.

I would have no hesitation in recommending their services to anyone.

John Ayoh

Lekki Lagos.

My husband and I bought the communic8 package and what we got was really great corporate identity system that has helped in influencing the perception of customers and prospects. I can definitely say the identity elev8 developed has been a key component of our success so far.

Oluwatoyin Dada

Erudition Ville
Anthony Village Lagos

"I am very happy with the Elev8 service for startups. When we launched our company a year ago we knew presentation was going to be the key to unlocking the seed capital we needed to take it to the next level. I have talked with Biola & Tobi who have been very helpful and professional. They listened to our vision for Ajala and helped come up with a brand that makes people ask questions. We had a few issues about the cost of our project as we were on a zero budget but they stressed that we had to do it right and the money spent was well worth it. We just got that seed funding and we are sticking with Elev8 and not moving on to an over priced "agency". They are the big brand company for small ambitious start ups. You guys rock abeg!
